

# 9

UNIDAD NUEVE

EL AGUA

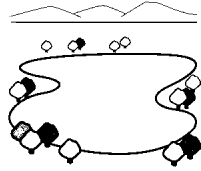

el mar

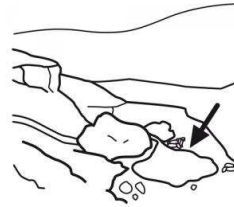

el arroyo

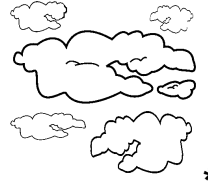

el río

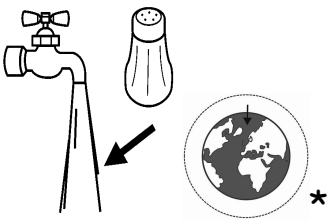

el lago

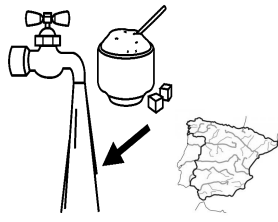

el manantial

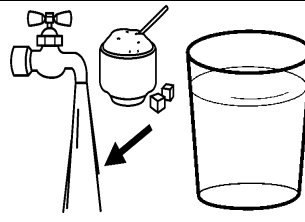

las nubes

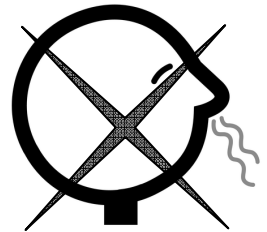

agua salada

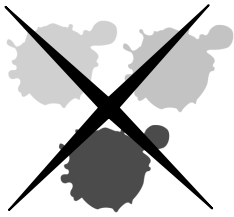

agua dulce

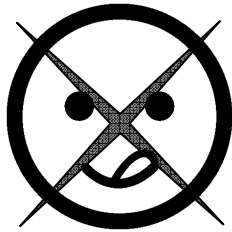

El agua es un líquido

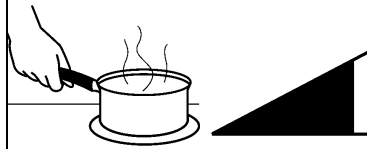

sin olor,

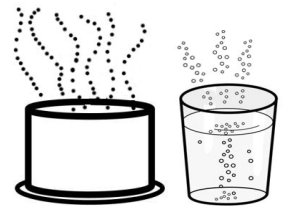

sin color,

sin sabor.

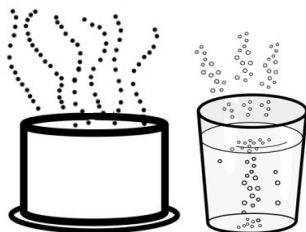

Si calentamos mucho

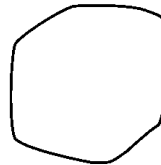

tenemos vapor.

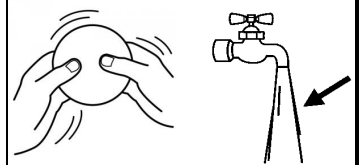

Si está muy frío

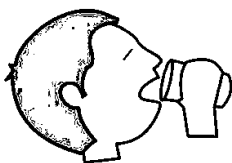

se congela.

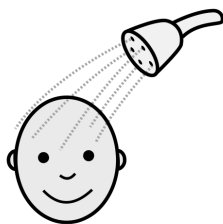

y tenemos hielo.

Utilizamos el agua

beber

ducharse

regar

nadar

 <p>cocinar</p>	 <p>Apagar incendios</p>	 <p>Los tres estados del agua</p>	 <p>Líquido la lluvia</p>
 <p>Estado sólido nieve y granizo</p>	 <p>Estado gaseoso *</p>	 <p>la evaporación *</p>	 <p>el ciclo del agua *</p>
 <p>El agua</p>	 <p>es</p>	 <p>necesaria *</p>	 <p>para la vida.</p>
 <p>No</p>	 <p>tenemos que</p>	 <p>malgastar *</p>	 <p>ni contaminar</p>
 <p>El agua</p>	 <p>es</p>	 <p>un bien</p>	 <p>preciado. *</p>
